The Year -
2000
- (Fold) - Problem

Responsable Person: Stefan Delecat
1. Start with a sheet of Din A4, coloured side down. At first subdevide paper into thirds.
2. Mark the crossing between diagonal and existing crease.

3. Fold and unfold through the line you just made.

4. Make two further subdividing valley folds.

5. Fold and unfold. Than turn the model over.

6. Pleat the paper. The crease of previous step shall touch the two marks. Turn the model over.
**7.** Fold and unfold along partly existing creases.

8. Fold and unfold two times. Bring the bottom edge to the existing crease. Turn the model over.

9. Left fold runs through an existing crease, right fold is marked by the pleat line. Turn the model over.

10. Precrease four diagonals.

**11.** Fold and unfold through crossings of the diagonals. Turn the model over.

**12.** Fold and unfold, than turn the model over again.

**13.** Precrease like in steps 10 and 11 before. Turn the model over.

**14.** After a last crease fold the whole model in half.

15. Precrease through all layers. Creases should be Repeated as mountain folds.

**16.** Precrease through all layers. Creases should be repeated as mountain folds.

17. Repeat steps 14-16 on both remaining sides.

18. Fold a top by pleating the creases of steps 15 and 16.

19. Pull apart both flaps as far as model edges run again in straight line.

20. Fold both flaps under. Sides of the top must be folded a litle bit inside by two mountain folds.

**21.** Repeat steps 18-20 on both sides of the top.

**22.** In following steps the model is shown in top view.

**23.** Bring the left part of rear flap to front.
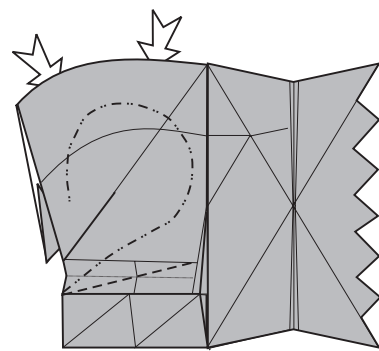

24. Pull out some paper and form an angular block.
25. Fold upper part in diagonal up to the centre.

**26. Fold one third back.**

27. Press together bottom part of block completely. Than fold flap back to rear.

28. Reverse fold paper along a curved Mountain fold forming "2".

29. Open sink all three tops along oval mountain folds to form the zeros. adjust their size on cipher "2".

30. Finished number "2000". Happy Millennium.
